Belvidere, Ill., Dec. 3, 1891.

NORTON LEMMY, Des Moines, Iowa.
DEAR SIR:—Having suffered a great deal from headache for years and being unable to get relief until it would wear away of itself. I saw Krause's Headache Capsules advertised. I tried them and now am never without them, finding it the only remedy that will give me relief. When I now find a headache coming on me I take a capsule and find the relief instantaneous.

Respectfully yours,

G. H. WRIGHT,

Suicide of a Mining Man.

The news has been received at Eureka that Richard Gluyas, superintendent of the new Philadelphia Mining company committed suicide last Saturday by setting fire to a pile of thirty cords of wood, climbing on it and then shooting himself. Two pieces of bone and a fragment of a pistol were all the remains found of him. He left a will and letters directing the disposition of his property. All goes to show he had deliberated on the deed for two months. The cause of the suicide was reverses, disappointments and the low price of silver. His property, like his companies, consisted of mines and lands at Hot Creek, Nye county, where the suicide occurred.

Remonstrance.

The undersigned, patrons of Paradise school district No. 8, in Paradise valley, Humboldt county, Nevada, representing four-fifths of the school children, have remonstrated against the action of B. F. We hereby declare our intentions and pledge ourselves not to allow our children to attend the school taught by C. L. Flack.

It has 36 signatures and it would appear that it is in order for Flack to resign.

The World's Fair.

Chicago, Aug. 25.—The sky is slightly overcast with clouds this morning but not enough to prevent a large attendance at the Fair. Peculiar Weather.

Carson has had some peculiar weather the last two days.

Yesterday forenoon was very hot but in the afternoon it clouded up, and for about 15 minutes the rain fell in torrents.

Finally the rain ceased, but heavy clouds hung over the town, and atmosphere gradually turned from a refreshing coolness to a disagreeable heat.

Taken all together it partook of the nature of a phenomenon.

The town of Mullen, Idaho, is in danger. It is surrounded by forest fires which are raging fiercely.
